

# Let Us Help!

## Secaucus Businesses!

*We would love to work with you! Please let us know if you are already green or if you need ideas on how to make your company green.*

*We would love to tell our residents about all the environmental initiatives your business is taking to help make Secaucus a sustainable community.*

## Town of Secaucus Environmental Department

Secaucus is a  
Green Community  
201-86-GREEN

## Secaucus Goes Green!

**The Town of Secaucus is a Silver Level Certified Community with Sustainable Jersey.**

### Our Commitment to the Environment

Being partly surrounded by the Meadowlands, we understand that we have a big responsibility towards protecting the environment, especially since we live in such a fragile ecosystem.

All businesses and residents have a responsibility to protect this environment through conservation and sustainable practices.

To this end, Secaucus has implemented a wide range of innovative, environmental projects including: solar initiatives; a Styrofoam ban; rain, butterfly and community gardens; tree plantings and tree inventories.

## Our Accomplishments!

### Lucky to Live and Work in Secaucus!

Of the 565 municipalities in the state of New Jersey, the Town of Secaucus is ***one of seven***, who takes the environment seriously enough to have a full time environmental coordinator on staff.

This means that we can offer professional guidance to help your company ***go green***. If you have questions on how to make your company environmentally friendly or need ideas on ways to reduce your carbon footprint, please call our Environmental Coordinator, Amanda Nesheiwat, at 201 864-7336. She will be happy to meet with you and steer your organization in the right direction.

For example, if a business qualifies, Mega Light, an environmental lighting company can supply your company with free LED light bulbs to replace all the lights at your business site. This is one way we can help!

Call us to discuss the many ways your company can participate to help keep Secaucus green!

## Here's What YOU Can Do!

### How Can Your Company Get Involved?

Many companies have active "Corporate Social Responsibility" (CSR) programs in which their employees volunteer their time to give back to the community in which they work.

Earth Week is not the only time your employees can get involved with the town and the environment! Some easy to organize year-round projects are:

- **Adopt** a Block with Tree / Flower Plantings
- Have your employees **Volunteer** to do Town / Park / Marsh / Pond Clean Ups or
- **Sponsor** a youth or school group to: 1) build bird houses, bat houses, 2) go on an educational Hackensack River eco-cruise, 3) clean up a park, 4) plant a tree or 5) become a sponsor at our annual Green Festival.

**The Town of Secaucus is committed to sustainability, but we need your help and involvement.**
