Master Class for Adults in 'Creating a Dynamic Character Through Song' explores an in depth approach to making a song vibrant, alive and truthful through character development within the music and lyrics. Bart's unique approach to marry song and character into an honest, passionate journey will inspire students to 'live truthfully in the song' and most importantly 'in the moment'. Practicing Transcendental Meditation for years, he uses this technique in his classes to help quell anxiety, fears of failure, audition nerves and to hone razor-like focus to get the job done - truthfully. Below are some of the musicals Bart has appeared in. Space is limited, please register to secure your spot.
